*Budget authority appropriations request for FY 11, by center, compared to preceding years; exclusive of user fees.

†Represents a proposal for a \$146 million increase (6.2 percent) compared to FY 10.

‡Represents a proposal for a \$495 million increase (21.2 percent) compared to FY 10.

Because the Office of Management and Budget (OMB) includes new and proposed user fees in their totals, these numbers vary considerably from those being discussed by the Administration and reported by many sources. Notably, the President’s request includes user fees being collected for the new tobacco center at FDA, monies that exactly match the cost of new responsibilities added this year.
