- Questions

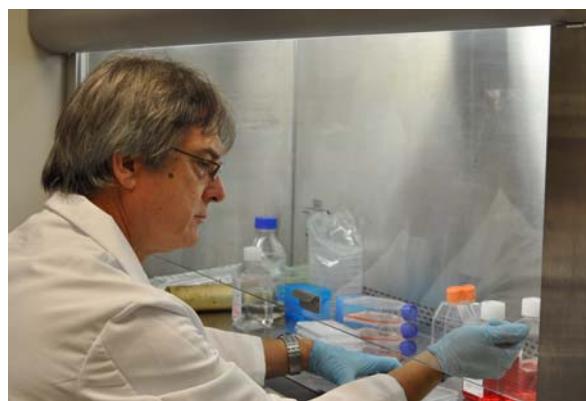

OFFICE OF REGULATORY AFFAIRS

230 OFFICES IN FY 2011

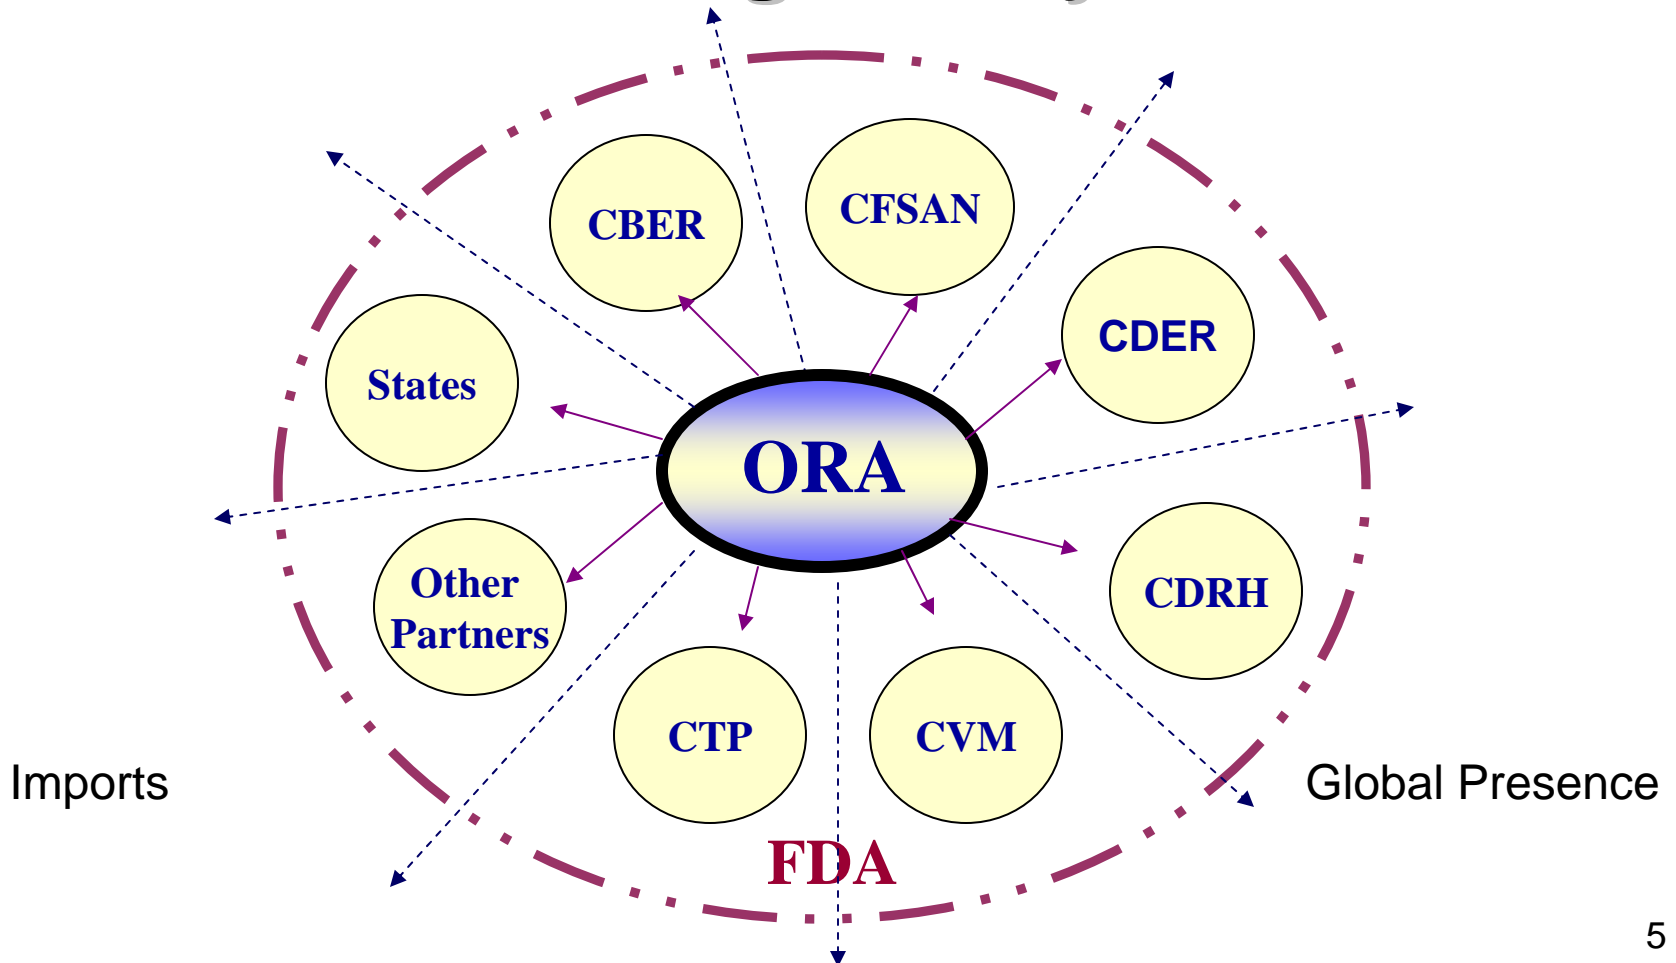

About ORA

- Inspections
 - Pre-approval
 - Post market
- Sample Collection and Analysis
- Import Product Review
 - Field Exams
 - Sampling
- Investigations
 - Consumer Complaints
 - Emergency Response
 - Criminal Investigations
- Enforcement

Partnership with Product Centers and other Regulatory Partners

Globalization

- Globalization has fundamentally changed the environment for regulating food and medical products; it has created unique regulatory challenges:
 - Foreign inspections: increased demand
 - Comparability assessments
 - Counterfeiting
 - Foreign offices

Food Safety Modernization Act: Implementation

- Mandated inspection frequency
 - risk-based inspection frequency for domestic and foreign facilities
 - risk determination based on multiple factors
- New enforcement tools
 - mandatory recall
 - expanded records access
 - expanded administrative detention

Maintaining and Maximizing Efficiency of ORA's Inspectional Force

- With the FY 2008 Supplement, FY 2009 appropriation, and continued support in FY 10, ORA was able to increase its inspectional force by over 800 new investigators
- Greater specialization

Information Technology

- Predictive Risk-based Evaluation for Dynamic Import Compliance Targeting
- Screening tools for Investigators
- Handhelds

Enforcement

- Streamlined Review of Cases
- 5-year OAI Review
- Improved Recall Search Engine

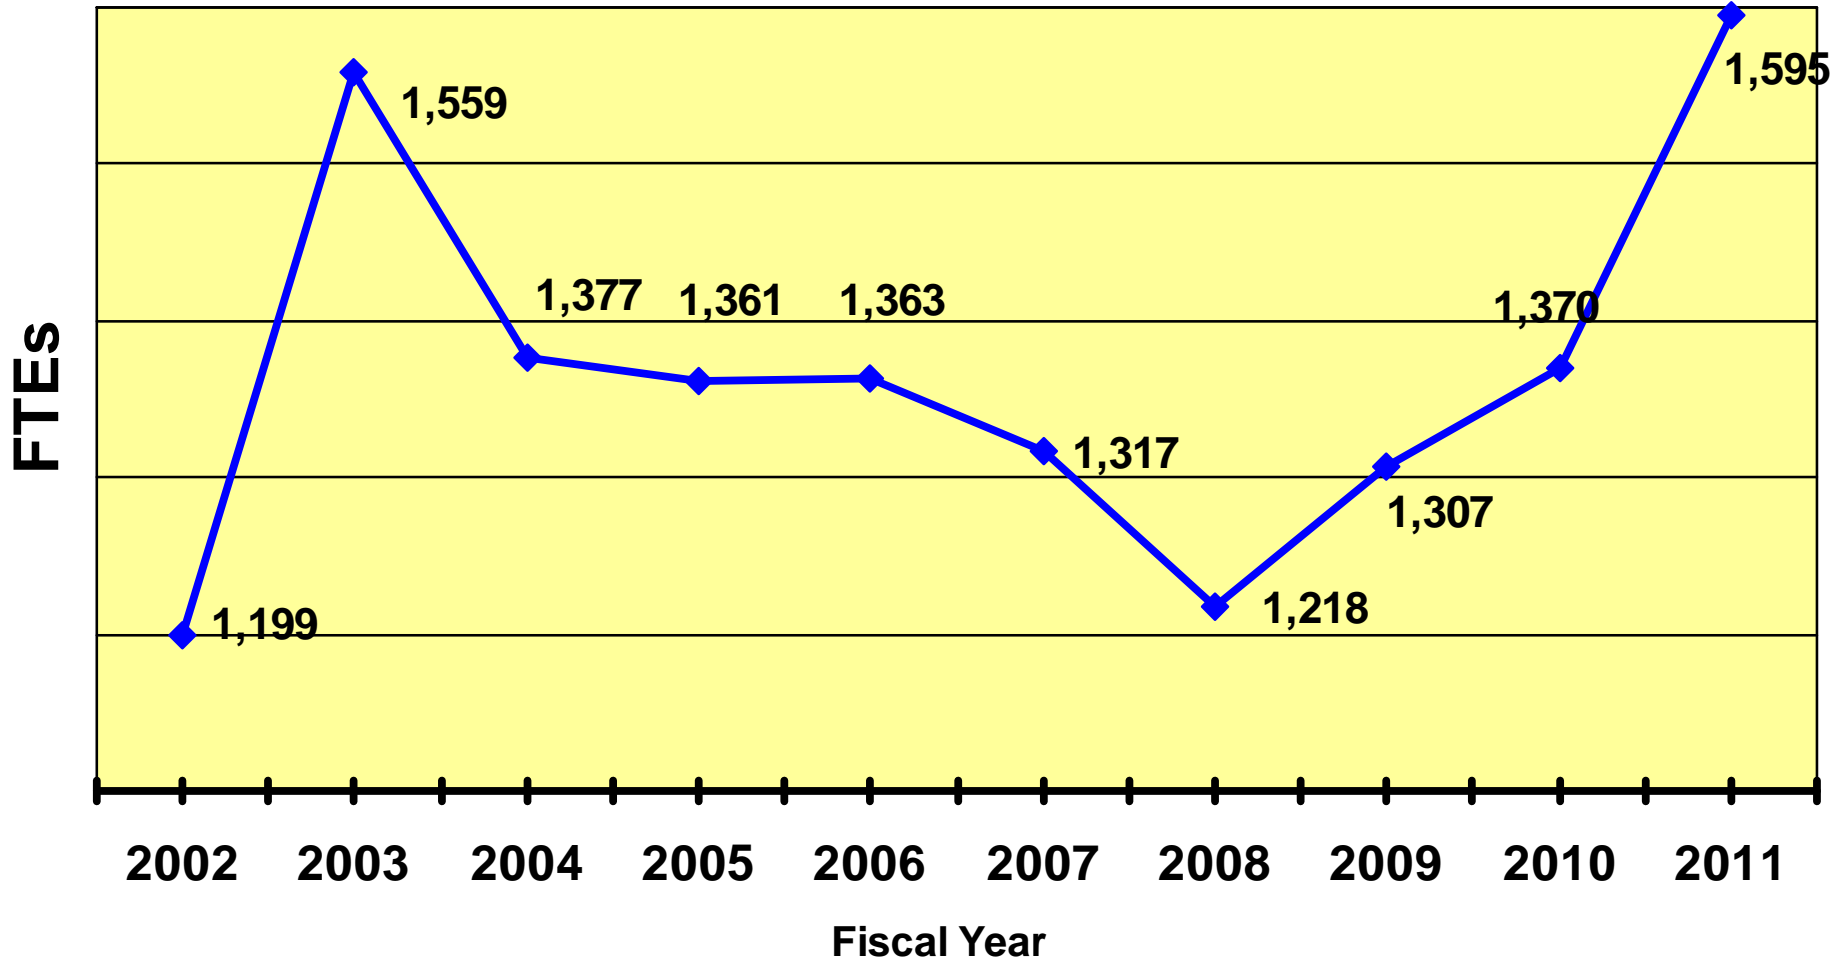

Commissioner's Reorganization - July 2011

FY 12 Budget

- President's Request:
 - increase of \$326.0 million for the Transforming Food Safety and Nutrition Initiative
 - increase of \$123.6 million for the Protecting Patients Initiative

FDA: Investigative FTE History
